UNTICE! No. 15 Quincy Street.

TUESDAY, SEPT, 30, 1873.

WE fear the city fathers are losing valuable time and opportunity in the way of making much needed street improvements. If there is one crying need in this city more urgent than others, it is that two or three of the leading thoroughfares should be macadamized so as to make them tolerably passable during the inclement season. There has been all summer a large idle balance in the treasury It was collected from the people not to lie idle in the banks and benefit nobody but those institutions, but to be judiciously exwas robbed of \$3,900. pended for the public benefit. Next to paying debt and stopping interest-and hardly secondary indeed to such an as that—we don't know how this money could be expended where it would be of more public advantage to the city than it would be if judiciously spent on the thoroughfares which in the rainy season are almost impassable and wholly disgraceful to the city. Even the paved streets are greatly out of repsir; and the sidewalks on the average quite as bad as we remember to have ever seen them. There is need of a great deal of work on the streets. It ought to have been undertaken earlier in the season. The autumn is here. In another month the fall rains will set in and the annual struggle with mud will begin Meanwhile the taxes drawn from the peo ple for public improvements lie idle in the banks, and the city, for the want of their proper expenditure, relapses more and more into the condition of the country village, where pedestrians must put their trousers in their boots and streets can be crossed only at the risk of personal safety

ENGLISH REPUBLICANISM.—If we may credit Mr. Bradlaugh, who ought to be an authority on the point, the movement for canism has already secured not only a footing in England but a tolonly a looung in Logiand but a toi-erably healthful growth. He declares that there are at this moment over two hundred Republican clubs in that coun-try, well organized and led with ability, whose members are openly in favor of the establishment of a Republican form of government for the English people. He knows this to be the fact, because he himself has framed the rules and is an honorary member of most of the societies, a well as President of the London Republican Club. In London the organization is specially numerous and strong, and it flourishes also in Birmingham, Notting-ham, Manchester, Sheffield, and all the great manufacturing towns, chiefly among the cotton spinners, factory opera-tives and mechanics, and it also claims converts among the miners of Northumberland and Durham. The English farmers do not take kindly as yet to the Republicanism of Bradlaugh. Their special champion is the loyal Arch. The Irish Republicans seem to be a class by themselves—possible allies in the future of Bradlaugh, Odgers, Beales, Murray and the English agitators, but with a watch-word of "home rule for Ireland," which is not at all the same thing as British Republicanism. Scotland, according to Mr. Bradlaugh, has a few clubs and quite a number of Republican sympathizers, es-pecially in Glasgow, Dundee, Edinburgh and Aberdeen, but is not so much infected with the desire for a republic as are th manufacturing districts of England. Altogether, the great agitator who has jus come among us takes a rosy view of the prospects of his cause at home.

It looks as if the reaction in monetary matters had fairly set in, and was likely to go on to complete recovery. While matters are getting no worse in any quar-Nail, Dining Room, Bracket ter they are getting decidedly better at the great money centers, New York and Chicago. If the improvement in those cities continues, it cannot be long before it will be reflected throughout the coun-

Our New York dispatches this morning indicate that so far as that city is con-F. C. WINSHIP & CO'S. cerned the danger is over. It is possible some disaster not now apprehended may arise or that the trouble may develop new phases; but it looks as if the tient were convalescent and needed only judicious nursing to complete the recovery. The Financial Chronicle has argued in two successive articles that this is a mere panic of capital, the least serious of the three varieties under which it say all panics may be classed. In Saturday issue the Chronicle said if its classification of the present panic was correct, i ought soon to be over, and that we might look to see a reaction set in early this week. The reaction appears to have be gun, according to the prediction, and we only hope it may go on without relapse till the wheels of business throughout the country are again unlocked.

The colored people of the United States are to hold a National Convention in Washington, December 8th, a call fixing that day and location having recently been issued by the Pennsylvania Equal Rights League. The chief object is said to be to ask Congress, which will then be in session, to give the colored people additional guarantees, protection and privileges by passing a new Civil Rights bill. The particular features of the measure have not yet been indicated.

THE New York Commercial Advertiser thinks it a pity that the asionishing amount of knowledge on tinancial subjects developed in the columns of the rural press since the panic began, could not have been utilized in season to avert the disaster, instead of wasting its sweetness on the desert air of delinquent subscribers and importunate washerwomen. The "rural a" in New York newspaper vernaculer includes Philadelphia and Boston.

LARGE SHIPMENTS.—The stringency has not yet interfered much with business in this city, if we may judge by the daily shipments of our wholesale merchants. A wholesale grocery house, near neighbor of ours, yesterday filled orders amounting to over \$4,000, the goods nearly all going to points in West Vir-
